

Butler II

Five and One Button Paging System

QUICK SETUP & OPERATION

Each button on the one or five button Butler II can be programmed to send a unique message to separate pagers or group of pagers. Both the five-button and one-button models can also send a specific message for an external switch or sensor.

Installation

To put the Butler II in operation:

Note: If your Butler II is not already programmed, refer to the programming guide first.

1. Install the 3-batteries in the butler (note the + end)
2. Locate the mounting bracket where it is to be used. (use screws, straps or velcro)
3. Install the batteries.
4. Position the unit into the notches in the mounting bracket and press until latch engages.
5. Connect an external sensor (if used)
6. Turn on the pager (refer to the pager booklet).
7. Press the button(s) to test the pager.

Normal Operation

1. The indicator light will be faintly blinking
2. Press a button, the indicator light will flash and the pager will receive the message.
3. For external contacts, enable the contact and the pager will receive the message.

Advanced Feature Operation

Enabling the following features require the programming kit. Instructions for this kit are contained in the Help file.

Auto Off/On

The Butler II can be set to automatically turn off or on at pre-selected times of the day.

Page Acknowledge

The Confirmation button will send a message indicating the time between a button press

(or other input) and staff response.

Low Battery Page

The Butler II can send a low battery message when batteries are low.

Lockout

The alarm input can be locked out (disabled) for a period of time. This allows staff to pass through monitored areas without setting off alarms.

- The staff member presses Confirmation button simultaneously,
- Then enters a 3-digit disable code.
- The alarm is disabled for a selected time and will reinitiate when the alarm contacts are restored.

WARRANTY

Long Range Systems, Inc. products are not designed, intended, or authorized for use as components in systems intended to support or sustain life, or for any other application in which the failure of the Long Range Systems, Inc. product could create a situation where personal injury or death may occur.

Should Buyer purchase or use Long Range Systems, Inc. products for any such unintended or unauthorized application, Buyer shall indemnify and hold Long Range Systems, Inc. and its officers, employees, subsidiaries, affiliates, and distributors harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that Long Range Systems, Inc. was negligent regarding the design or manufacture of the part, device or system.

EU DECLARATION OF CONFORMITY

We, Long Range Systems hereby declare under our sole responsibility that the Butler II paging system and on-site pagers complies with the essential requirements in the European RE&TTE Directive 1999/5/EC of the European Parliament of the Council of 9 March 1999 on radio equipment and telecommunication terminal equipment and the mutual recognition of their conformity. The following standards were utilized:

ETS 300 224: 1998 EN 301 489-2: 2002

EN61000-3-2: 1998 EN 61000-3-3: 1995

EN 60950: 1992 with A1, A2, & A3
